WILSON PRAISES

In Signing Measure Says It Ends Disadvantages

Just before signing the measure, which creates a system of twelve land loan banks under direction of a Federal board, the President said:

ity with all others who have genuine assets and makes the great credit of the country available to them. One cannot but feel that this is delayed justice to them, and cannot but feel that it is a very gratifying thing to play any part in doing this act of justice. I look forward to the benefits of this bill, not with extravagant expectations, but with confident expectation that it will be of very wide reaching benefits, and incidentally will be of advantage to the investing community, for I can imagine no more satisfactory and solid investments than this system will afford those who have money to use."

Fourteen lawyers, representing thirty-one heirs of Edward B. Adriance, arose yesterday before Justice Giegerich, in the Supreme Court, when the suit of Mortimer A. Fowler against Maude Kissam Babcock and others was called. Adriance died intestate five years ago, and there has been a continuous search for heirs since that time. Identification has required visits to California, and that a body be exhumed in Mississippi.

The action is a friendly one for a sale of property, including 108 and 110 Greene Street and 568 West Twenty-third Street, valued at about half a million dollars. Boy Drowned in Reservoir. Charles Wesighan, of Cranford, N. J., was drowned yesterday while fishing in the Middlesex Water Company's reservoir. He had been angling with a hand line, which was tightly tied about his wrist, and it is believed that he was pulled into the reservoir when his hook caught on a floating piece of timber. The body was recovered by the boy's father.

"It is a feeling not only of profound satisfaction, but of real gratitude, that we have completed this piece of legislation, which I hope will be immensely beneficial to the farmers of the country. The farmers, it seems to me, have occupied hitherto a singular position of disadvantage. They have not had the same freedom to get credit on their real estate that others have had who were in manufacturing and commercial enterprises, and while they have sustained our life they did not, in the same degree with some others, share in the benefits of that life.

"Therefore, this bill, along with the very liberal provisions of the Federal Reserve act, puts them upon an equality with all others who have genuine assets and makes the great credit of asset "It is a feeling not only of profound
